

How to use **NASONEX[®]** (nasal spray)

Kyorin 

For best results, use **NASONEX[®]** regularly each day.

Note

- Use **NASONEX[®]** exactly as prescribed by your doctor.
- Do not try to unblock the nasal applicator by inserting a pin or other sharp object as it will cause damage to the applicator.

Procedure 1

Before use

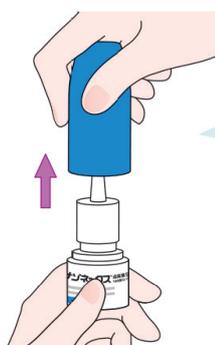

Gently blow your nose to clear your nostrils.

Shake the bottle well before using.

Remove the plastic cap by pulling straight up.

※Do not twist the cap.

Hold the bottle firmly as shown.

When using a new bottle

Your nasal spray must be primed before you use it for the first time. Press down and release the pump 10 times or until a fine spray appears.

Procedure 2

The right way to spray

12 years of age and older
2 sprays in
each nostril once daily.

Tilt your head forward slightly and insert the tip of the bottle just inside your nostril. Spray 1 time into each nostril.

Breathe inward through the nostril so NASONEX reaches deep inside your nostrils. Then breathe out through your mouth.

Once again, spray 1 time into each nostril.

Breathe inward through the nostril so NASONEX reaches deep inside your nostrils. Then breathe out through your mouth.

Under 12 years old
1 spray in
each nostril once daily.

Tilt your head forward slightly and insert the tip of the bottle just inside your nostril. Spray 1 time into each nostril.

When parent-assisted, please spray as shown.

Breathe inward through the nostril so NASONEX reaches deep inside your nostrils. Then breathe out through your mouth.

Procedure 3

After use

- Wipe the nasal applicator with a clean tissue and replace the plastic cap.
- Store at room temperature away from direct sunlight.
